Our New Building

On November 2008, the Snyder County Conservation District moved into the former Apex Homes office building at 10541 Route 522, Middleburg, PA. The building is across the parking lot of the current USDA's Farm Service Center at 401 & 405 West Market Street in Middleburg.

Even though the Conservation District received assistance from lending institutions and the Snyder County Board of Commissioners, we are still seeking additional government grants and donations from the community. We have tightened our belts in order to be able to afford this building and are open to select agencies or businesses to rent space from us.

We rarely reach out with fundraising purposes, but if you feel so inclined, please consider making a donation to help us pay for the building. Depending on the amount donated, your name could be placed on a permanent plaque or a room could have your name on it or even the entire building could be named after you. All donations are tax deductible and very much appreciated.

Every little bit helps out and we appreciate it. For example:
