Snyder CCD Teaches Youngsters about Soils with "Soil Tunnel"

The Snyder County Conservation District debuted its "Soil Tunnel" at the Kid's Grove Fall Festival held in Selinsgrove on Saturday, October 11, 2008. An estimated 300 children visited the "Soil Tunnel" that day. The "Soil Tunnel" teaches the basics and importance of our soils while crawling "under the soil surface" in a "tunnel" made by the Conservation District staff.

The "Soil Tunnel" has been used in other events as well. Much of the materials were donated by local businesses. Thank you local businesses!

For more information, contact our Watershed Specialist, Jason Winey, at 570-837-3000, x112.
