C.) Plans & Applications under the SALDO (Section B)

*OLD PLANS:*

**File #5778 Gregory Mull Land Development Plan; Center Township; Axtman Engineering - Engineer**

*This plan is for the construction of an establishment located on parcel 04-06-055 located in Center Township. This plan was tabled at the November meeting to allow the design engineer to respond to comments provided and to find a resolution for the homeowner across the road and the light that shines into their home.*

*This plan will be reviewed to determine if it should be conditionally approved or if we're waiting on something from the engineer.*

**File #5792 Koons / Fisher Subdivision Plan; Jackson Township; Hornberger Surveying LLC - Surveyor**

*This plan is for the subdivision of tract 05-02-012 with an addition from tract 08-02-011 to create Proposed Lot 1. Proposed Lot 1 will be 1.505 acres.*

*This plan was tabled at the February meeting due to the waiver request to reduce the Right-of-Way from 33' per Section 508 to 20'.*

*After discussion the waiver was granted, due to the hardship of a greater right-of-way than the requested 20' would infringe upon the parking for the home on the front lot, upon motion by Dave second by John C. motion carried. The plan was then Conditionally Approved upon motion by Betsy with a second by Ashley motion carried.*

**NEW PLANS:**

**File #5795 Glenda & Roger Lauver – Whispering Pines Lot Addition Plan; Perry & Washington Townships; Hornberger Surveying, LLC - Surveyor**

*This plan is for the subdivision of tracts 19-04-001, 14-10-041 and 14-10-042 with additions changing between the two sets of owners. There will also be an addition to tract 14-10-103. There will be changes to 4 tracts in total. Tracts 14-10-041, 14-10-042, 14-10-103 and 19-04-001.*

*Waiver Request:*

*Section 508 – Layout / Right-of-Way Requirement to allow for a 25' Right-of-Way. Minimum required is 33' by ordinance.*

*The waiver request for Section 508 was discussed. It was noted by the planning director that the Pennsylvania Municipalities Planning Code notes that there're supposed to be a hardship to grant waivers, and that a financial burden is not supposed to be considered a hardship, It was discussed that the trees which are*

*currently in the area that would be part of the right-of-way would be allowed to stay within the right-of-way and that the only things that should not be placed within a right-of-way would be permanent structures. After discussion and upon motion by Jon H. and second by Ashley the waiver was approved to allow the reduced right-of-way width of 25' with John C. voting not to grant the waiver. After granting of the waiver upon motion by Betsy and second by Dave the plan was Conditionally Approved with the motion carrying.*

***Sandra & Roy Sprenkle & Amos & Elva Brubacker Lot Addition Plan; Center Township; Hornberger Surveying, LLC - Surveyor***

*This plan is for a lot addition from the lands of Sandra & Roy Sprenkle, Tract 04-02-033, to the lands of Amos & Elva Brubacker. Proposed Lot Addition A is 23.111 acres which will leave a residue of approximately 103 acres.*

*Waiver Request:*

*Section 508 – Layout / Right-of-Way Requirement to allow for a 20' Right-of-Way. Minimum required is 33' by ordinance.*

*A similar discussion on this plan was had as was discussed on File #5795. There was additional discussion on whether or not Sandra Sprenkle knows and understands the possible implications that the reduced right-of-way could have on her property in the future. After discussion there was a motion by Betsy to table the plan to allow for time to discuss with Mrs. Sprenkle; however there was no second. There was more discussion to the effect that the ordinance calls for a 33' right-of-way and there are no apparent hardships with having the full width right-of-way it was also discussed to have the planning director add a comment that a right-of-way agreement should be submitted for review by the planning commission prior to approval. A motion was then made by Bobby to deny the waiver with no second to the motion. The matter was then further discussed and another motion was made by Betsy to table the plan to allow the owners to discuss the right-of-way and how they would like to proceed prior to the planning commission taking action on the waiver request. The motion was seconded by Dave and the motion carried.*

Zach Wenrich - Royer's Ridge Rd. – to build a garage before building a single family dwelling. Had been discussed in the past, solution they came up with was he could do so but had to build the house within 5 years.

*After tonight's discussion, the commission reached a similar conclusion. Mr. Wenrich could build the garage first. Then build the house within the 5 year timeframe. The structure would be 2280 sq. feet, less than the 2500 sq. feet in the ordinance. It meets the ordinance, just doing the steps backwards. Exemption GRANTED, motion by Jon, second by Ashley. Motion carried. Lincoln to send a letter stating the Land Development Exemption has been granted.

**File #5826     Penn Dairy Lot Additions Plan; Jackson Township, Snyder County; Livic Civil – Engineer / Surveyor**

This plan is for the consolidation of 5 Tracts currently owned by Penn Dairy along with a lot addition from Michael Ulrich from tax parcel #08-03-016.

### **General Comments**

1. All Certificates should be fully executed prior to Final approval. The Ownership Certificates should be labeled Snyder County instead of Union County.
2. The references for the Ulrich tract should be changed to 08-03-016 most call it 116. This occurs on all three sheets.
3. General Note #3 should refer to Snyder County instead of Lycoming.
4. Sheet #2 Ulrich is misspelled on the plan view.

### **Plan Comments**

#### **1. Section 402.B.5 & 6 – Draft Deeds**

Draft Deeds for the transfer of all of the add-on pieces, and for the combining of the add-on pieces with the existing lot to which it is being added are required for plan approval.

Distance to the nearest road intersection or major references should be shown per this section.

#### **3. Section 403. B.9 – Boundary**

Boundary information should be provided for all lots per this section of the ordinance.

File #5828

**Goodling to Sensenig Lot Addition Plan; Washington Township – Snyder County; Kreamer Survey Associates, Inc. – Surveyor**

This plan is for the subtraction of Lot 2 from Tax Parcel 19-07-010 (Goodlings) and added to the Tax Parcel 19-07-019B (Sensenigs).

**General Comments**

1. All Certificates should be fully executed prior to Final approval.

**Plan Comments:**

**1. Section 402.B.5 & 6 – Draft Deeds**

Draft Deeds for the transfer of the add-on piece, and for the combining of the add-on piece with the existing lot to which it is being added are required for plan approval

2. In the Adjoiner Table, the Tax Parcel for the Sensenig's appears to be listed incorrectly. I believe it is Tax Parcel 19-07-019B and it is referenced as such everywhere else on the plan, but here is referenced as 19-07-019A.
3. Per GIS, there appear to be a few Tax Parcels or Land Owners listed incorrectly or not listed at all. Please verify the information.
4. There are no coordinates listed for the boundaries for Residual Lot 1, Tax Parcel 19-07-010, belonging to the Goodlings. There are also no coordinates listed for the boundaries for Tax Parcel 19-07-019B belonging to the Sensenings.
